Limited Spots Available – Only 28 Places!

Paediatric BASIC

Outline

Paediatric Basic Assessment and Support in Intensive Care is a **two-day interactive course** comprising lectures, workshops and skills stations.

We are excited to offer this course in the Paediatric ICU at Monash Children's Hospital with its adjacent surgical SIM centre!

The course is intended for Advanced Trainees and Consultants.

It covers fundamental knowledge and skills for doctors working or training in PICUs, regional ICUs and other critical care environments that provide intensive care management and/or advanced resuscitation and pre-transport stabilisation of critically ill and injured children.

Aims

Prepare critical care and paediatric medical staff for the first few hours of paediatric intensive care until the patient is transferred.

Prepare non-intensivists to manage acute deterioration of critically ill paediatric patients.

Prepare paediatric, emergency medicine, and anaesthetic staff for paediatric critical care medicine.

Contents

- Airway management and mechanical ventilation in children
- Basic haemodynamic monitoring
- Fluid management in critically ill children
- Management of paediatric septic shock
- Initial management of shock in congenital heart disease
- Paediatric critical care transport
- Pre-course MCQ assessment, post-course MCQ exam

Fees

Senior Specialists	\$1500 (GST incl.)
Junior Trainees	\$1000 (GST incl.)

Inclusions

Two-day Course

Certificate upon completion

Lunch, morning and afternoon tea

Course Dinner, Thursday 27 November
