

Beyond Basic Nephrology

A Critical Care Nephrology Course for ICU Doctors

Beyond Basic Nephrology is a focused, ICU-specific course designed to strengthen nephrology knowledge essential for managing critically ill patients.

The course is built for ICU doctors at every stage—from those just starting their ICU training to experienced intensivists looking to refresh and refine their critical care nephrology skills.

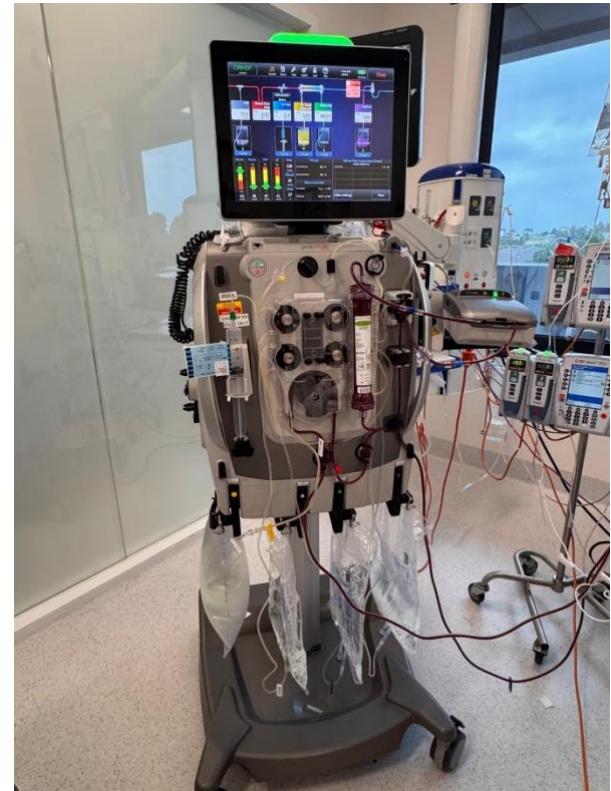

Key Highlights

- Acute kidney injury, real world case based learning
- **CRRT in the ICU** – prescription, troubleshooting & optimization
- **Citrate dialysis** – practical use and complication management
- **Therapeutic Plasma Exchange (TPE)** for severe renal, autoimmune and other systemic pathology

Who Should Do This Course?

- **New ICU trainees** starting their critical care training
- **Advanced Trainees** preparing for their fellowship exam
- **Intensivists** who wish to refresh and update their critical care nephrology skills

Any ICU or Critical Care or Renal doctor involved in prescribing, managing, or troubleshooting renal support therapies will benefit from this course
